# MAKE THE KLEVER CHOICE

MAKE **COMMUTING** YOUR FAVOURITE TIME OF DAY

Getting some light exercise at the start and end of our  
day that lowers our carbon footprint, improves our  
moral, and turns our commute into a more enjoyable  
"re-connection with nature" moment.

I WANT TO USE MY CAR LESS

I WANT TO GO  
**GO FURTHER & FASTER**

I KNOW REAR MOTORS ARE BEST FOR 45km/h E-BIKES

43

Please note that best fitting size also depends on body weight, leg size and personal preference

# KLEVER SPEED E-BIKES

A MORE BALANCED FRAME COMBINED WITH SPEED E-BIKE  
BRAKING AND FRONT SUSPENSION MEANS  
A SAFER, MORE CONTROLLABLE E-BIKE

## STIFF FRAME

A Stiff frame with a centrally positioned external battery for greater control and safety.

FOR A BETTER RIDING POSITION:

## CABLE ROUTED ADJUSTABLE STEMS

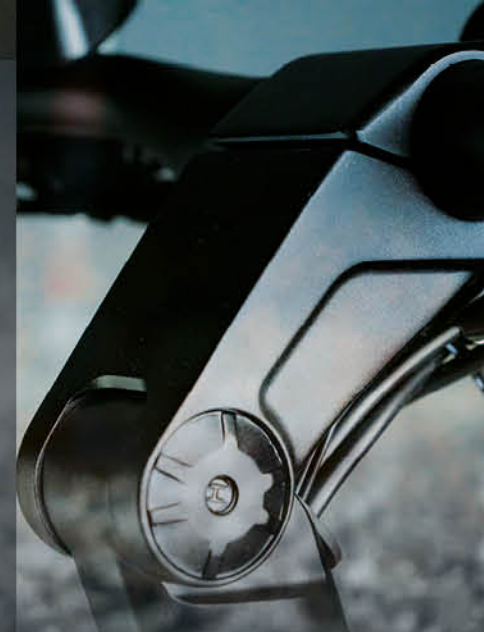

Few speed e-bikes offer Type-CE approved adjustable stems. Cable routing in adjustable stems are even rarer. (Choose between 90 and 110 mm stems for even better fitting.)

## SPEED E-BIKE SUSPENDED FRONT FORK

The Klever front fork is specifically designed for our speed e-bikes. These hassle-free coil spring forks offer comfort and low maintenance.

## SPEED E-BIKE BRAKES

Our braking systems are the product of continuous development to create brakes that are safe and quieter.

# REAL 45 km/h

## BECAUSE OF OUR POWERFUL REAR MOTOR

Since power is not transmitted via a chain, but directly to the road, rear motors are particularly suited for 45 km/h riding.

### REAL 45 SPEED

High-end rear motors are the best solution for commuters looking for REAL 45 km/h speed e-bikes.

### REGENERATIVE BRAKING/ COASTING

Only direct-drive rear-motor systems like ours, can convert braking and coasting energy into electric energy thus extending your range.

### RELIABLE BRUSHLESS COIL

Our brushless motor in the rear wheel is simple and has few moving parts, so less wear and longer life.

### A SMOOTH SILENT RIDE

Smooth and silent acceleration comes from a combination of multiple sensors and Klever software that makes the riding sensation more natural.

## RIDE & RANGE

### ADJUSTABLE STEM

Set angle, reach and handlebar position to personalise your riding position.

### ROCKSHOX

All X series are equipped with high-end RockShox front suspension.

### 1200Wh BATTERY

End your "range anxiety" on long or cold rides.

## SAFETY FEATURES

### REAR BRAKE LIGHT

Your tail light will brighten when you brake so other road users will notice you.

### FRONT / REAR INDICATORS

Keep your hands on the handlebar when approaching corners.

### KLEVER HIGH/LOW BEAM

All 45 models have 1350 lumen high-beam headlights.

## PINION & BELT FEATURES

### BELT DRIVE

High-quality belt for less dirt and low maintenance.

### PINION GEARBOX

Premium, high-end, sealed gearbox. Ready for all weather conditions.

## GREAT HANDLING

- Sport geometry
- 850Wh and 1200Wh for more range
- High-power 800 W motor for real 45 km/h speeds
- More comfort with RockShox front suspension
- Brake better with double-piston front brake
- Safer: indicators, rear brake light and high/low-beam headlight

# FEEL SAFE

## SEE AND BE SEEN

With indicators, brake lights and one of the most powerful headlights.

## BRAKE LIGHTS

Drivers will understand you are not a regular cyclist, and will better understand your role in today's urban traffic.

## REAL 45 E-BIKE BRAKES

Our braking systems are the product of continuous development to create brakes that are safe and quieter.

## FIRST WITH INDICATORS

Klever is the first speed e-bike brand to put indicators on all their models. We understand how important it is to keep both hands on the handlebar in corners.

## 1350 LUMEN HEADLIGHTS

With high / low beam and a brightness of 1350 lumen, it's one of the brightest. (It also suffers from less light degradation over time due to efficient heat dissipation.)

# CHARGE ME ANYWHERE BATTERIES

## EASY-TO-CHARGE DESIGN

Our durable, stylish battery works at low temperatures and incorporates over-/under-charging protection.

## SWAP & GO HANDLE

Easy to extract, carry and insert thanks to its ergonomic steel handle.

## ONE-TOUCH CHECK LIGHT BUTTON

Check levels at the touch of a button, at home or directly on your bike.

## COVERED CHARGING PORT

Water-resistant rubber-sealed covers.

## BACK & FORWARD COMPATIBILITY

### USE OLD OR NEW BATTERIES

You can use almost any battery on almost any Klever, from the 570Wh to the newer 1200Wh.

FOR ANY E-BIKE BRAND, RANGE IS ONLY AN ESTIMATE

# SORRY WE CAN'T GIVE YOU TODAY'S PRECISE RANGE.

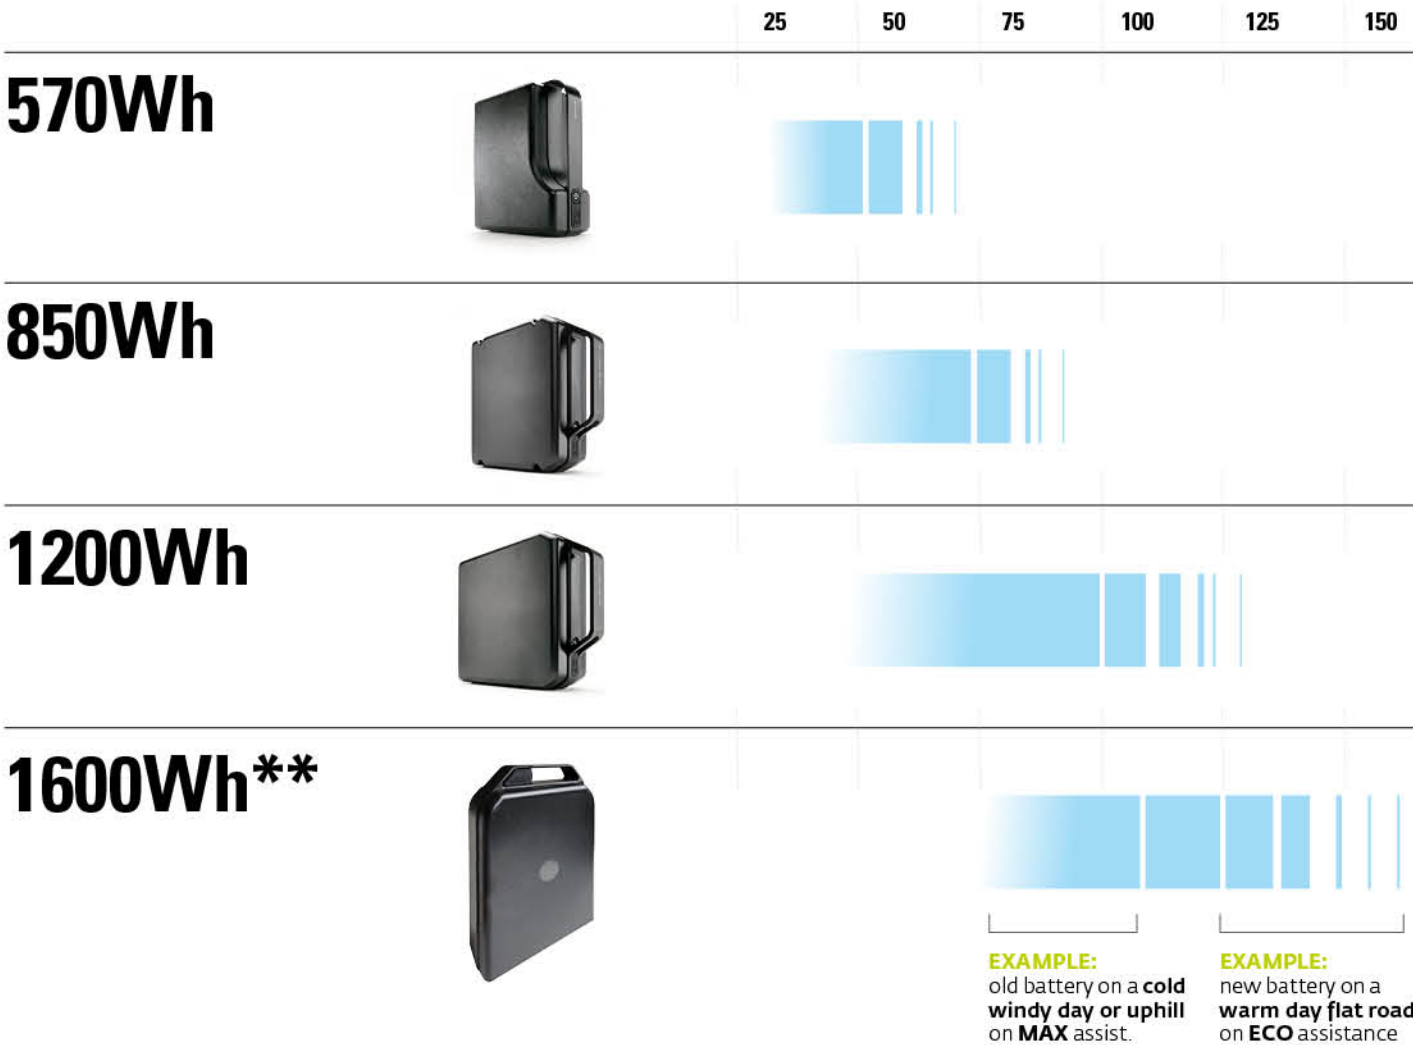

but we can help you understand why it's longer or shorter

## CONDITIONS THAT AFFECT YOUR RANGE, FOR BETTER / WORSE:

- STORAGE TEMPERATURE (TODAY/OVER YEARS)
- OUTSIDE TEMPERATURE (DURING RIDE)
- RIDING WITH OR AGAINST THE WIND
- RIDING ON FLAT OR UP/DOWN HILLS
- RIDING STYLE (CONSTANT OR MANY STOP/STARTS)
- YOUR ASSISTANCE LEVEL (ECO, TOUR OR MAX)
- YOUR RIDING POSITION, UPRIGHT OR SPORTY
- HOW MUCH YOU PEDAL (YOUR CONTRIBUTION)
- YOUR WEIGHT AND THE LOAD YOU CARRY
- TYRE PRESSURE
- HOW LONG AGO YOU CHARGED
- THE AGE OF YOUR BATTERY
- THE MOTOR POWER (HIGH USES MORE)

Battery power

approximate distance in km

## CHARGE TIMES

	570 Wh	850 Wh	1200 Wh	1600 Wh
	2.6 hrs	4 hrs	6 hrs	9 hrs

6 AMP CHARGER

## MAKING YOUR BATTERY LAST LONGER

We have chosen to reserve a portion of battery capacity to protect the battery itself, giving you greater range every day, more consistently, for many years.

\*\* available in 2024

# KYMCO: KLEVER ORIGINS

## KLEVER

KYMCO LIGHT ELECTRIC VEHICLES

Kymco, Taiwan

### KYMCO

Kymco is a company with more than **3000 employees and 50 years of experience** in the production of scooters, light motorcycles and 30 years in e-scooters. Kymco is also a supplier of technology to companies such as Kawasaki and BMW.

### KYMCO: THE POWER TO UPSCALE AND SUPPORT ADVANCED PRODUCTION

Kymco ensures Klever has the power to upscale and support advanced production, product development, and testing facilities.

### ADVANCED TESTING FACILITIES

Klever operates rigorous control and testing

### HIGH-END BATTERY SUPPLIERS

Kymco shares the development of its advanced battery development program.
